TECHNOLOGY

FEATURES

- Water resistant.
- Impact resistant.
- Self-adhesive.
- Breathable.
- Anti-slip.
- Exclusive technology.

TYPICAL PROPERTIES

Property	Value
Thickness	1.1mm
Weight	120g/m ²
Colour	Green
Elongation - MD	8.40%
Elongation - CD	18.80%
Break strength - MD	234.3 N/50mm
Break strength-CD	70.1 N/50mm
Water vapor permeability	3200g/m ² .24h
Ambient humidity	10%~90%
Recommended application temperature	-22°C~55°C
Application time	14 days
Storage time	1 year

FURTHER TECHNICAL INFORMATION

Property	Value
Material-Bottom	Polyethylene Terephthalate fibre
Material-Top	Breathable PE-film + Strengthened nonwove
Type of adhesive	water-base cement

WARNING

- The application time may vary depending on the type of flooring, heating system, ambient temperature, and other conditions. Customers are advised to test the product on an inconspicuous area before proceeding with full installation.
- Keep all flame and heat sources away from this product.

BREATHABLE FLEECE

120 GSM 25M

INSTALLATION AND APPLICATION

SURFACE APPLICATION

- Suitable for flat and hard surfaces.
- Not for use on porous surfaces.
- Do not use on wet or freshly laid floors.
- Do not use on surfaces that have been treated with any solvent-based products before they have been properly cured per the manufacturer's guidelines and no longer emit solvent vapor.
- Not recommended for use on cement or concrete.

INSTALLATION

- Ensure the surface is clean, dry, and free from dust, debris, and grease.
- Turn off underfloor heating.
- Lay the protection fleece, adhesive side down, making sure it is smoothed out with no wrinkles.
- Cut excess with a safety knife.
- When applying multiple lengths of protection fleece, ensure that there is a 10cm overlap, and secure it using the adhesive backing or suitable tape.
- Taping down the start and the end of the roll is recommended.

INSTALLATION ON STAIRS

- Start from the top step and apply the protection fleece adhesive side down.
- Work step by step, pressing the fleece into the risers and treads.
- Ensure there are no creases in the fleece and regularly check the adhesion against the protected surface.
- If damage occurs to the fleece, replace it so the surface is still protected.

GUIDANCE

- Test the suitability of the product in advance in an inconspicuous area.
- Store in a dry place.
- Maximum usage is three months.
- Keep the product away from high temperatures and strong direct sunlight.
- Keep away from flames and heat sources.
- Avoid leaving heavy objects on the fleece for long periods of time.
