

Loft Lid

Fitting Instructions

1. Install downlight according to manufacturers instructions

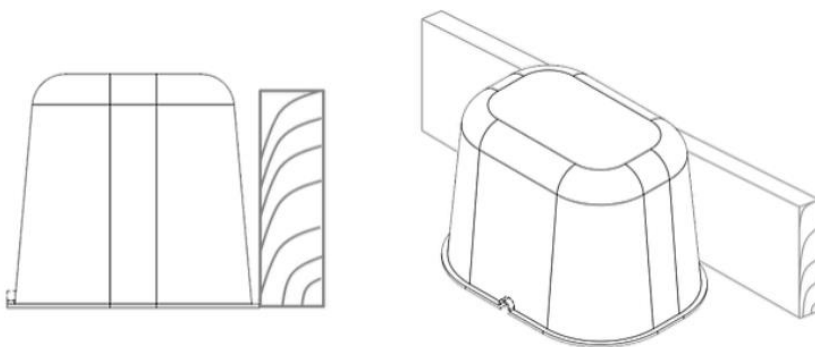

2. Apply continous layer of sealant to bottom lip

3. Press down Loft Lid to secure in position

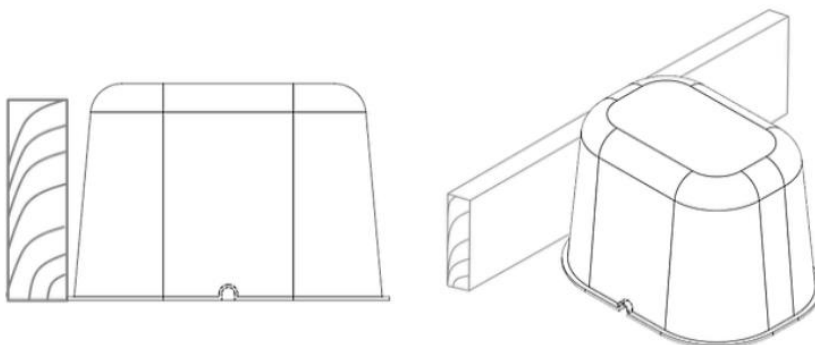

4. Lay insulation around and over Loft Lid

Fitting close to joists and trusses:

The Loft Lid has been designed to fit over downlights even when they are located close to joists and trusses. Simply orientate the lid into the best position and follow the fitting instructions above.

Along the joist

Perpendicular to the joist
